

200 MILLION FLOWERS

the art of adoption

200 Million Flowers is not your average adoption agency. This starts with our abstract expression of the beauty of the adoption process and an understanding of the critical importance of positive childhood experiences in our society. Mother Teresa said "How can there be too many children? It's like saying there are too many flowers."

There are not enough flowers.

200 Million Flowers is a Mississippi non-profit committed to making the connection between children in need of love and people that have love to give. We promote adoption, foster care, social services and mentoring – leveraging world class legal talent and our private social services program to journey with adoptive couples and brave birthmothers. We are also an outreach organization working with children and youth and partnering with other amazing people who do awe-inspiring work to combat the global orphan crisis and the ever-growing fatherlessness pandemic.

As Americans, we are slaves to mass marketing – hypnotized by our digital viewing devices. 200 Million Flowers makes music out of the noise that has become the theme song of our lives by using a mixed media approach to influence public perception to bring about positive change.

Because we are new, we are proactive to partner and not afraid to admit when we do not have everything figured out, and we dream in color when it comes to creating mechanisms for parents to fund adoption journeys through the facilitation of grants, loans and fundraising strategies.

200 MILLION FLOWERS
